As a historian my greatest passion is history, as great people and events of past, that are still shaping the future. I like to meet people and share with them views, opinions and experiences, and in that way enriching myself. What is always pulling further in guiding profession is that there is always some horizon to discover- a new city, new culture,, new group of people to meet, new challenge to meet. Also I am animal lover, having dachshund, we both enjoy spending outdoor time. Also i am a great fan of movies.
